

Play a recycling themed Kahoot!

You can play together as a group or each student can play individually. Use this [link](#) to start the game. Please send your best score to petra.mikkola@opetus.espoo.fi to compete internationally. The time limit for each question is two minutes in case you need to translate the questions or answers for the younger pupils. The quicker you are, the more points you will receive! Have fun! Play before the end of April.
